

### POOLE BAY BEACH MANAGEMENT SCHEME

#### MMO Licence Number L/2020/00419/1

#### **This Local Notice to Mariners is issued on behalf of BCP Council**

Notice is hereby given that work to renourish the beach at Bournemouth and Poole is scheduled to commence on at the beginning of January 2021 and be completed by end of March 2021. Works will be carried out by appointed contractor Boskalis Westminster Ltd.

Renourishment material will be dredged from a licenced site outside of Poole Bay, and transported to Poole Bay by a Trailing Suction Hopper Dredger (TSHD), via the defined transit routes shown on the attached admiralty chart. Multiple beach sites will be renourished between Poole Beach (immediately west of Shore Road) and the Eastern end of the promenade at Southbourne with a combined total of 350,000 m<sup>3</sup> of material. The working area of plant, with the exception of the vessel transit routes in and out of the bay, will be within the area delineated by 4 coordinates (A,B,C,D) on the attached drawing.

Vessels will be operating on a 24 hour basis and will display appropriate light and shape signals, and maintain a listening watch on VHF channel 16.

Provisionally 3 pipeline positions are required to pump material onshore to all locations via a 1050m sinker pipeline, with further pipeline on shore to deliver material along the beach to the required areas. Works are expected to progress in a East to West direction and the pipe line will be relocated accordingly throughout the works. The delimited vessel transit routes and pipeline locations are appended to this Notice.

**Please note that pipeline positions are provisional and may be subject to change as works require.**

**The work will consist of:**

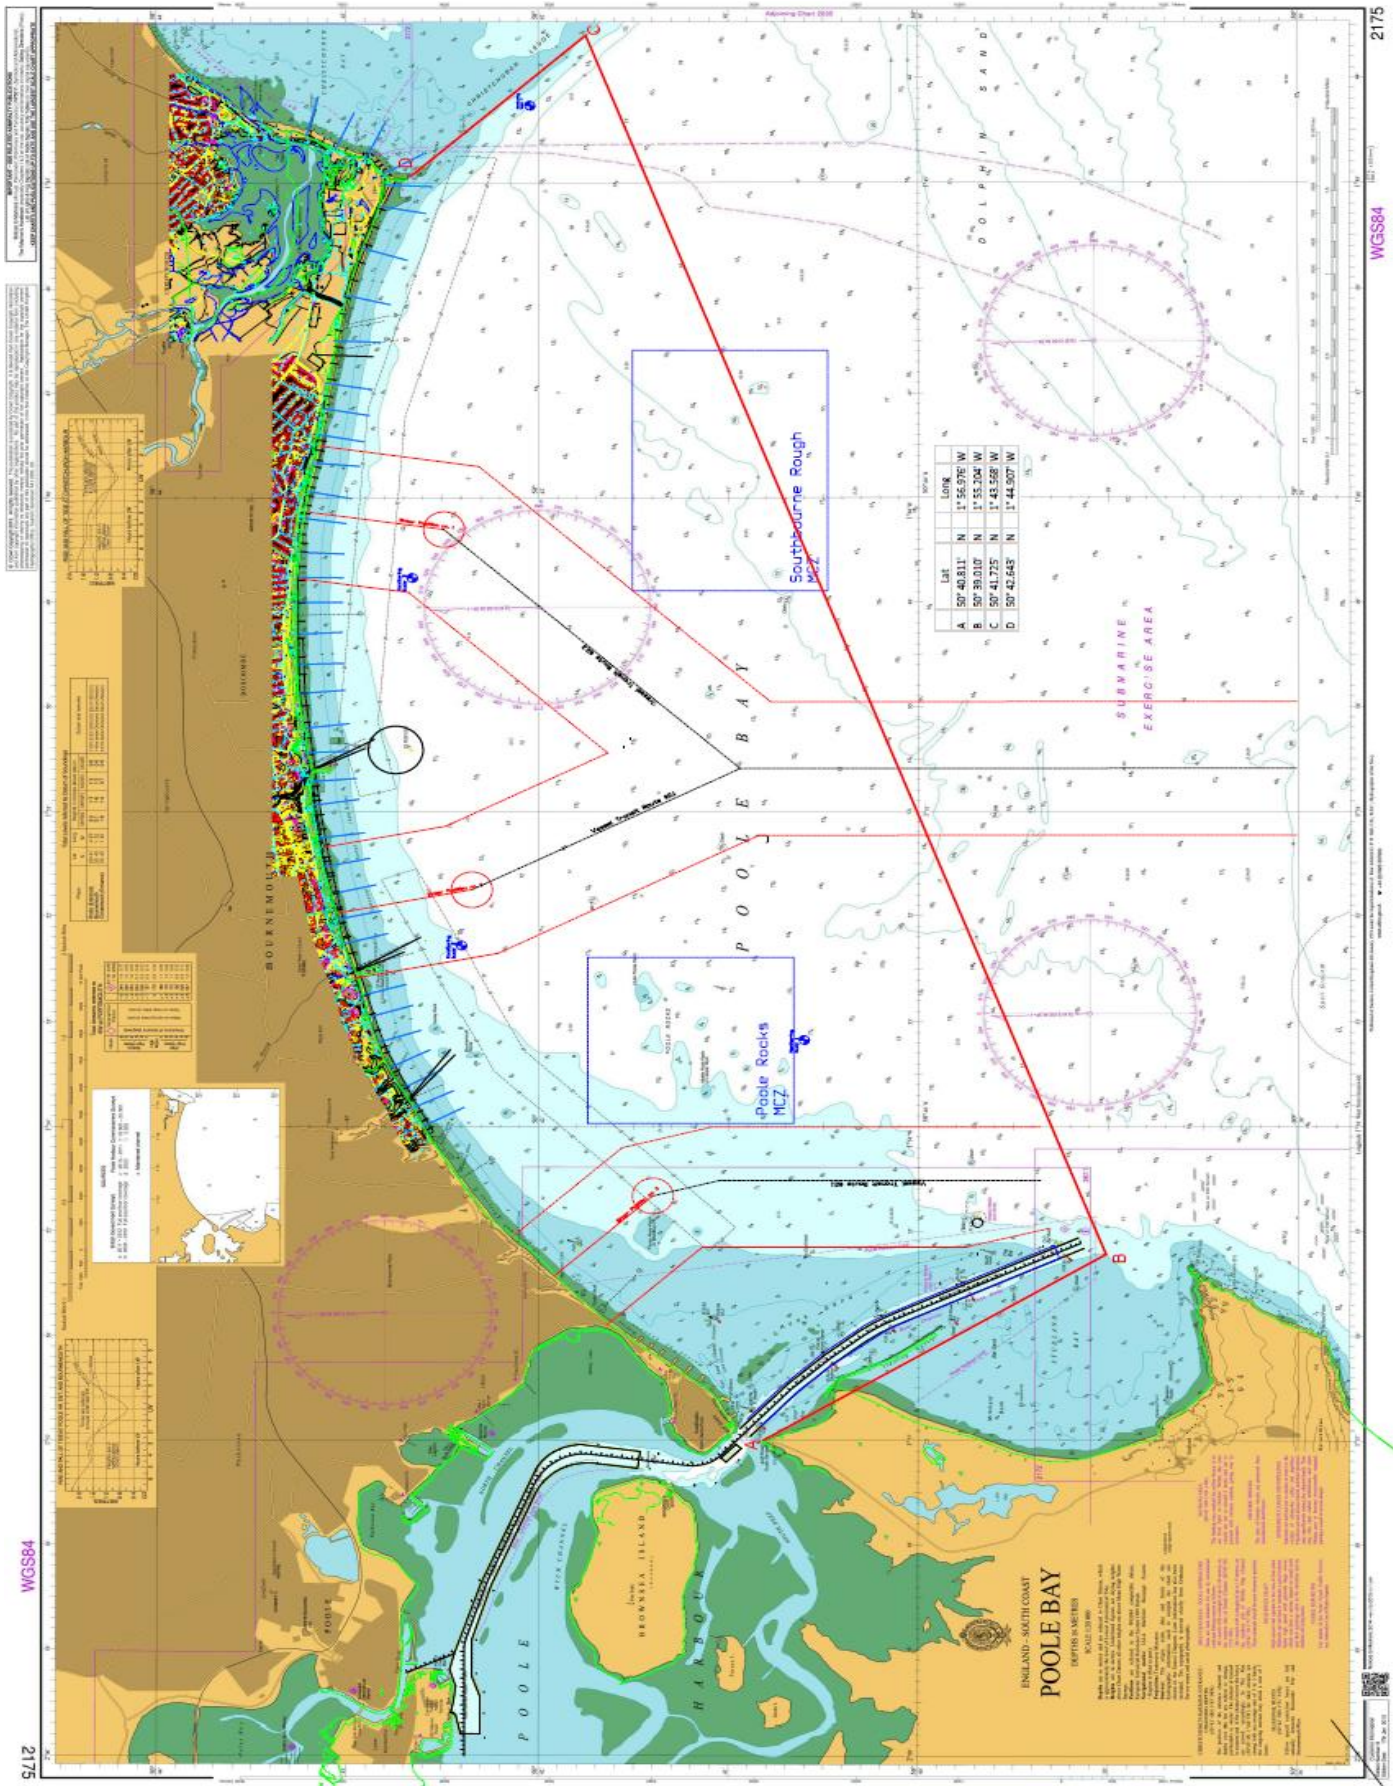

- Pipeline movements, both floating and sinker line
- Anchor movements
- Pumping ashore
- Survey works
- Deployment of 4 environmental monitoring buoys

Local Fisheries Liaison Officers appointed by the council will oversee vessel and equipment movements.

**This notice will be updated with expected movement and arrival dates of the pipeline into Poole Bay.**

**Mariners are advised to remain vigilant and navigate with caution when in the vicinity of the works, and requested to give vessels, buoys and floating pipe a wide berth.**
